SUMMARY

Game Design & Development student at RIT seeking a Summer 2027 internship or full-time technical artist position to contribute to real-time game development pipelines.

EDUCATION

Rochester Institute of Technology

Graduating May 2027

Bachelor of Science, Game Design and Development

TECHNICAL SKILLS

- ❖ Languages: C#, C++, JavaScript, Blueprints
- ❖ Engines: Unity, Unreal
- ❖ Design Tools: Maya, Substance 3D Painter, ZBrush, Photoshop
- ❖ Dev Tools: Perforce, Git, Github, Visual Studio

PROFESSIONAL EXPERIENCE

ChangelingVR

May 2026 - August 2026

Technical Artist Internship - Unreal 4

- ❖ Participated as a Technical artist on a narrative-driven VR game built in Unreal Engine 4.
- ❖ Worked as part of a team of 5 artists alongside a larger development team of 80 developers.
- ❖ Acted as a 3D generalist working on foliage, character models and rigs, retopology, and shaders.
- ❖ Focused on gaining experience in Maya, Substance Painter 3D, and ZBrush during the program.

RIT ITS Desktop Support

September 2022 - Present

Technician

- ❖ Provided technical support for university staff and students, both remotely and in person.
- ❖ Utilize various tools including BeyondTrust, ServiceNow, Slack, Intune, and Jamf to assist users.
- ❖ Diagnosed and resolved software/hardware issues across Windows, macOS, and Linux environments.

PROJECTS

The MAW

June 2026 - September 2026

3D Prop Artist Volunteer - Godot

- ❖ Rogue-like first-person shooter developed in partnership with the Make-A-Wish Foundation.
- ❖ Visually aimed at a low-poly art style trying to mimic older console games.
- ❖ Contributed to a team of 18 as a 3D Prop artist creating various assets for use in levels.
- ❖ Primarily used Maya, ZBrush, and Substance Painter 3D for models created.

Anaake Punch!

June 2026

UI/UX Designer / 3D Modeler - Unity

- ❖ 3D PvP platformer developed over a 2 week time span as part of a semi-remote game jam.
- ❖ Developed as a team of 8 students from both KCG (Kyoto Computer Gakuin) and RIT.
- ❖ Primarily worked on UI/UX in Unity creating animations and menus.
- ❖ Secondarily worked on 3D models for the main player character.
- ❖ Language and time zone barriers between members posed unique challenges during the project.
